Title: Cornett Indigenous Cultural Space (COR ICS) – Construction Renovation

Location: Cornett, A169

Description:

Facilities Management, in coordination with CGI Constructors, will be undertaking demolition of non-structural interior block walls within Cornett room A169 on November 28 and 29, 2026.

To facilitate the work, a coordinated sprinkler drain-down and fire alarm mask will be required. Temporary hoarding will also be installed within the corridor to provide dust control and restrict access to the construction area, while maintaining corridor access throughout the duration of the work. Appropriate measures will be coordinated to maintain a safe and secure work environment.

To minimize disruption to building occupants, this high-noise construction activity has been scheduled for the weekend.

We apologize for any inconvenience this may cause and appreciate your patience, understanding, and cooperation as we complete these improvements.

Time frame: November 28 and 29, 2026, from 9am – 5pm.
