Did you know?
One in three UVic students take part in a co-op program!

Participate in co-op and you’ll graduate with:
- tons of relevant work experience
- a strong grasp of your competencies
- contacts in your field
- a better sense of your career goals

Love what you study
Gain hands-on experience
Work for real employers
Get a good job when you graduate

We’ll bring your learning to life.
Meet employers at our on-campus career fairs and workshops.

What’s co-op, again?

A way to graduate with a game plan
Co-op is an educational model that lets you alternate terms in class with terms working for employers in your field of study.

A way to travel
You could work for employers in Victoria, across Canada and around the world.

A way to cover your tuition
As a co-op student, you’ll earn a competitive wage while you work (nearly $2,900/month as of 2015).

A way to make yourself stand out
Co-op grads tend to find work related to their degree faster, and earn more money than students who don’t participate in co-op. You’ll even receive a “co-op” designation on your degree — something employers love to see.

How can UVic Co-op and Career help?

Join our world-famous co-operative education program (co-op) and gain paid, relevant work experience before you graduate (there are flexible options to fit your schedule).

Access expert help as you explore your career path and search for work (including résumé, cover letter and interview preparation).

Learn how to wow employers by understanding and describing your competencies.

What about applying?

Some co-op programs ask you to apply when you’re still in high school, while others wait until your first or second year. Plus, some UVic programs include co-op as a mandatory part of the curriculum.

Who do you want to be?

Whether you have a dream career in mind or want to explore your options, we’ve got you covered.
