**Poster Presentation Alternatives**

Completing a **third or fourth** work term? If so, you may choose to complete one of the following alternative assignments in lieu of a poster. Discuss your choices with the EPHE Coop Coordinator **prior to the end of your work term**. All other coop assignments must be completed.

Instead of creating a poster, students may choose to submit and present an **article & photo** or a **video**. These may be published on the School of Exercise Science, Physical & Health Education and/or UVic Cooperative Education and Career Services web sites. (see: http://www.uvic.ca/education/exercise/ and http://www.uvic.ca/coopandcareer)

- **Option #1: Poster**: As per prior work terms, complete a poster and present during our Poster Presentations at the beginning of each term

- **Option #2: Article & Photo**: Submit a brief written article & photo for the School of Exercise Science, Physical & Health Education Online Learning Community. Article should be approximately 500 words (2 pages) and include a photo (jpeg) of yourself in the workplace.

- **Option #3: Video**: Submit a brief video for the School of Exercise Science, Physical & Health Education Online Learning Community. Video should be approximately 120-180 seconds in length – similar to a video / movie trailer.

**What to include:**
Your poster, article & photo, or video should include a brief description of the agency you worked for including:

1. A summary of the organization and their purpose/goals/objectives
2. Target population; programs/ services offered
3. What you did for the organization
4. Your learning and how this relates to your academic studies

**Note:** UVic Co-op students, faculty, staff, and alumni, as well as complete strangers, future students, potential employers and parents will view your submission - take these audiences into consideration when submitting your assignment.

The EPHE Co-op Coordinator will review and approve your submission and the Online Learning Community team will copy edit and format your submission for publication online.

**Option #1: Poster** – see http://www.uvic.ca/coopandcareer/co-op/info-by-program/other-programs/index.php#acc-exercise-science-physical-and-heal for further details (Click on “Work term report, poster presentation and assignment alternative guidelines then the linked “poster””)
Option #2: Article and Photograph:
Write an article and contribute a photo that will be published on UVic’s EPHE, Faculty of Education and Co-operative Education websites.

1. Article: Choose a topic that relates to any aspect of your work – indirectly or directly - but it should focus on something that you learned during the term. Follow media (e.g. magazine or newspaper) formatting & content features, including appropriate length, a strong headline, and style (e.g. narrative, promotional, or persuasive). The article should be approximately 500-700 words. Submit to the EPHE Coop office as a Word file.

2. Photograph: YOU in the workplace – showcase yourself and the work you have done for in an agency. Provide references for your graphic(s) and submit these as a separate JPEG file.

3. Complete and sign an EPHE Media Release form. If other people who can be recognized in your photo, they must also complete a Media Release form. Please contact the EPHE Co-op Program for a copy of this document.

Submit your photo and article prior to the poster presentation date so that it can be showcased upon your return to campus.

Option #3: Video:

Videos can be an effective communication medium used in many contexts and for many purposes. It is a great way to use creativity in expressing your co-op learning outcomes, and can be a piece to add to your professional portfolio. Your video may even be used for co-op promotional or educational uses.

Produce a 2-5 minute video that represents your co-op learning experience or a certain aspect of it (e.g. an issue, process, project, or competency). Ensure your video has a title and credits. In additional, provide a short written description (2 pages) including information about the organization and your role, as well as why you chose the video and how developing it was useful (or not).

Submit your video prior to the poster presentation date so that it can be showcased upon your return to campus.

You must complete and sign a Media Release form for this assignment to be accepted. Please contact the EPHE Co-op Program for this document.
