Limited-Term Assistant Teaching Professor Position  
Electrical & Computer Engineering Department  
University of Victoria

The Department of Electrical & Computer Engineering at the University of Victoria invites applications for a limited-term Assistant Teaching Professor position with teaching duties starting 1 January 2017. This appointment could last up to two years with a probationary period at the start of the appointment. The highly qualified individual employed will be responsible for teaching four to six courses related to electrical power drives and systems with flexible assignments. e.g.: ELEC 365 (Applied Electronics and Electrical Machines) in the fall term (Sep-Dec) and ELEC 482 (Electrical Drive Systems) and ELEC 488 (Electrical Power Systems) in the spring term (Jan-Apr). Teaching ELEC 370 (Electromechanical Energy Conversion) and other circuits courses may also be considered in areas such as introductory circuit theory, electronics, and signal processing in other terms.

Successful applicants will be assigned selected administrative duties. Electrical & Computer Engineering course descriptions can be found at:

http://www.uvic.ca/engineering/ece/current/undergraduate/courses/index.php

Qualifications: Candidates must be experienced in teaching at the postsecondary level and professional engineer registration (PEng) is desirable. A PhD or Masters (in exceptional circumstances) in Electrical Engineering specializing in power-related areas is required. Salary will be commensurate with qualifications and experience. Review of applications will begin October 24 and continue until the position is filled. Applicants are asked to submit their application including a CV, a Teaching Statement, evidence of teaching effectiveness, and two reference letters by email to ecechair@uvic.ca. The University of Victoria is an equity employer and encourages applications from women, persons with disabilities, visible minorities, Aboriginal People, people of all sexual orientations and genders, and others who may contribute to the further diversification of the university. All qualified candidates are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadians and permanent residents will be given priority.
