MECH 601 – ENGINEERING ANALYSIS

Term – Fall 2016 (201609)

Instructor: Dr. Daniela Constantinescu
Office Hours: Days: W
Phone: 250.721.6040
E-mail: danielac@uvic.ca
Location: EOW 541

LECTURE DATE(S)
Section: A01 /CRN12317
Days: MR
Time: 1:00 pm – 2:20 pm
Location: CLE D134

TA Name
Razzi Movassaghi - Marking
E-mail: razzim@uvic.ca
Office hours ELW B260
M, R 1:00pm – 2:00pm

Reference Materials:
E. Kreyszig, “Advanced Engineering Mathematics”
R. Courant and D. Hilbert “Methods of mathematical Physics”
D.W. Jordan and P. Smith, “Mathematical Techniques”

COURSE OBJECTIVES: This course seeks to provide a graduate level introduction to advanced mathematical methods used in engineering analysis. The course focuses on the application of mathematics to engineering rather than on the rigorous proof of mathematical concepts. It covers integral transformations with applications, complex analysis and calculus of variations.

LEARNING OUTCOMES: Students who successfully complete this course, students will be able to use the concepts presented in class in their graduate research.

Weight & Date(s) of Assessments
Assignments (6):
Mid-term
Final Exam

Weight
25%
25%
50%

Date
09.29; 10.13; 10.27; 11:17; 12.01; 12.08.
Date: 4:00 pm – 6:00 pm on October 28 in ECS 104.
TBA.

ASSIGNMENTS (Description & Method of Delivery)
1. Six problem sets will be distributed over the course of the term via the MECH 601 Course Space site. Assignment problems will require both proofs and calculations to complete.
2. The assignments must be submitted to the box marked “MECH 601” opposite ELW A136. Late Assignments will not be accepted.

<td>10.13</td>
</tr>
</tbody>
</table>
NOTE:

Failure to pass the final exam will result in a failing grade for the course.

The final grade obtained from the above marking scheme for the purpose of GPA calculation will be based on the percentage-to-grade point conversion table as listed in the current Undergraduate Calendar.

COURSE LECTURE NOTES

Unless otherwise noted, all course materials supplied to students in this course have been prepared by the instructor and are intended for use in this course only. These materials are NOT to be re-circulated digitally, whether by email or by uploading or copying to websites, or to others not enrolled in this course. Violation of this policy may in some cases constitute a breach of academic integrity as defined in the UVic Calendar.

GENERAL INFORMATION

Note to Students:
Students who have issues with the conduct of the course should discuss them with the instructor first. If these discussions do not resolve the issue, then students should feel free to contact the Chair of the Department by email or the Chair’s Secretary to set up an appointment.

“Attendance

Students are expected to attend all classes in which they are enrolled. An academic unit may require a student to withdraw from a course if the student is registered in another course that occurs at the same time....

An instructor may refuse a student admission to a lecture, laboratory, online course discussion or learning activity, tutorial or other learning activity set out in the course outline because of lateness, misconduct, inattention or failure to meet the responsibilities of the course set out in the course outline. Students who neglect their academic work may be assigned a final grade of N or debarred from final examinations.

Students who do not attend classes must not assume that they have been dropped from a course by an academic unit or an instructor. Courses that are not formally dropped will be given a failing grade, students may be required to withdraw and will be required to pay the tuition fee for the course.” UVic Calendar, (2016) http://web.uvic.ca/calendar2016-09/grad/academic-regulations/attendance.html

Acmodation of Religious Observance (AC1210)

Faculty of Engineering, University of Victoria
Standards for Professional Behaviour

“It is the responsibility of all members of the Faculty of Engineering, students, staff and faculty, to adhere to and promote standards of professional behaviour that support an effective learning environment that prepares graduates for careers as professionals....”

You are advised to read the Faculty of Engineering document Standards for Professional Behaviour which contains important information regarding conduct in courses, labs, and in the general use of facilities.
http://www.uvic.ca/engineering/current/undergrad/index.php#section0-23

Cheating, plagiarism and other forms of academic fraud are taken very seriously by both the University and the Department. You should consult the Undergraduate Calendar for the UVic policy on academic integrity.

Policy on Academic Integrity
