Facilities Notice

Title: Chemistry Laboratory Renovations

Location: Elliott Building First, Second and Third Floors

Description: Facilities Management will be working with the contractor undertaking major renovations to the undergraduate chemistry laboratories on the Elliott Building second floor. Upgrades to mechanical systems will require occasional work on the first and third floors, as well as exterior ducting to the rooftop.

All affected labs, as a result of these renovations, have been scheduled with the department. All mechanical shutdowns will be posted on the Facilities Management web and building occupants will be notified as they are scheduled.

Time frame: August 2015 – March 2016

Facilities Management contact: Larry Wilkinson
