Facilities Notice

Title: Scheduled Power Outage

Location: Cunningham Building

Description: Facilities Management Electrical shop will be making emergency repairs to the Cunningham Building electrical system. For the safety of workers the power supplying the building will be required to be shut down.

As this power outage affects the entire building, except for emergency circuits backed up by the building's generator, it is advised that everyone power off and unplug electrical equipment as you leave the building on Thursday, August 13, 2015.

Such equipment to be unplugged would include personal computers, printers, facsimile machines, and electronic laboratory equipment so as to avoid the risk of damage that could result from voltage fluctuations which may occur during this work.

Please **DO NOT** unplug any telephone sets.

Time frame: Thursday, August 13, 2015 from 6:00 p.m. for up to 4 hours

Facilities Management contact: Peter Robertson, Electrical Shop Supervisor
