This list contains over 50 electives suggested for developing competencies in specific areas and which may add to your perspective in preparation for Year 3 (Core) of the BCom program. No preference for admission is given to students who take these courses.

Feel free to go beyond this list and explore courses in other areas such as Science or Art if this is something you are interested in! These first two years of university are designed for you to study subjects you enjoy and that align with your future plans.

To help you choose which courses might suit you best, we have grouped them according to competencies, careers and BCom specializations. We have also included an index with the course titles on page 3.

All the best,
The BCom Advising Team

- ENGL 225
- ENGL 301
- ENT 100
- FA 101
- SOCI 204
- THEA 150

---

**Good to know**

- You are not restricted to 100-level courses in your 1st year and 200-level courses in your 2nd year. Explore courses based on your interest and their prerequisites, even at the 300 or 400-level if you wish!

- Don’t see a course in an area you’re interested in, like Science? Again, the above courses are just suggestions: never hesitate to go beyond this list and look at courses in other subjects. **Ask a BCom Advisor if you are not sure.**
Index

</tbody>
</table>

Note:
The above is a suggested study plan. The courses in red are the 5 required courses students must complete before progressing to Year 3 (Core) of the BCom program. The blank course cells represent your 22.5 units of electives to be chosen.

The order in which the courses are displayed above is not mandatory. It is simply our suggested order in which to structure your study plan. For more details, please contact a BCom Advisor at advisor@uvic.ca.

Build your Timetable

Using a blank timetable, and a list of courses, map out a conflict-free schedule that fits your learning style. We recommend that you build multiple timetables to ensure that you’re ready with alternative courses and sections if some are full or unavailable.

Remember that some courses have more than one required component, including lectures (A), labs (B) and tutorials (T).

More tips about building your timetable at uvic.ca/current-students/home/course-registration.
