University of Victoria School of Nursing
Master of Nursing
Information Session

Accessible, Innovative, Flexible Nursing Education

The school of nursing at UVic is a place of discovery and human flourishing. Through distributed/online dynamic learning in an extraordinary environment you will engage in collaborative communities of learners, join researchers and educators to apply research practice, theory and philosophy within your education.

Nursing is a dynamic and exciting career with infinite possibilities. Our Masters of Nursing program will help you enhance your career, contribute to the nursing profession and become a leader in your field.

- Advanced Practice Nursing (Leadership and Education)
- Nurse Practitioner
- Double Degree: Masters of Nursing and Masters of Science in Health Informatics

You are invited! To an online information session about distributed/online Master of Nursing programs

Monday September 11th 2017
5:00 - 6:00 pm PT
Online
