Cuba is the largest and least commercialized island in the Caribbean. However, with increasing numbers of travellers from the United States, recent agreements between Barack Obama and Raúl Castro, and Fidel Castro’s failing health, this situation is rapidly changing. During our 17-day tour around the island, from the cities to the tobacco fields and sugar cane plantations; from the beaches to the Sierra Maestra Mountains; we will study the history and politics and explore the strong African influence on Cuban culture, particularly on religion and music. Though more than 40 per cent of Cubans declare themselves Catholics, and supposedly only two per cent are followers of Santería (Afro-Cuban religion), the fact is that religious syncretism is very common, even among Catholics. With more than 200 original rhythms created on the island, including son, cha-cha-chá and guaguancó, Cuban musical tradition has long been of international renown. We will have the chance to enjoy musical performances of Cuban and Afro-Cuban rhythms during our stay. The beautiful colonial architecture is another highlight of our trip, particularly in the city of Havana.

Peloponnese Odyssey: Archaeology, History and Culture of Southern Greece

May 26 to June 15, 2016

The Peloponnese offers travellers a wonderful dichotomy—proximity to the striking world of the Eastern Mediterranean and all its ancient glory; as well as the comforts and familiarity of modern Europe.

The area is steeped in ancient history: from fabled antiquity, alive in a mythological age of heroic wars and monumental architecture, to the rise of the great city-states of Athens, Corinth and Sparta. We’ll become familiar with the true character of ancient Greece, when opposing forces often united under the common threat of an eastern empire—at one time, the Persians; at another, the Ottomans. We will learn about Greece’s Golden Age of culture, politics, art and philosophy which fed an emerging civilization and influenced the Romans, Byzantines and Turks after them, until Greece’s ultimate independence in the 19th century.
Our itinerary includes the mainstays of all these mythologies, power struggles and cultural awakenings: the bustling city of Athens; the Peloponnese with its Mycenaean splendours of temples and palaces; the birthplace of the Olympic Games; religious sanctuaries, which provided venues for citizens to pay homage to their gods; medieval fortifications of magnificent engineering; the last capital of the Roman Empire; and finally, the idyllic island of Santorini and its fabled city of Akrotiri, destroyed by the gods, and ours to wonder at.

Join us on this odyssey back in time to ancient and medieval Greece and return home with a better understanding of one of the most important places in human history.
