Course objective: Philosophy of mind is one of the most crucial areas of philosophical inquiry. The aim of the course is to provide an introduction to some central philosophical problems concerning the mind. Our focus will be on questions including the following: What is a mental state? How do images and concepts differ? Do you reliably know your own beliefs? Can you reliably know the thoughts of other people? Other topics to be explored include consciousness, intentionality, and free will. This course is developed to be accessible to those with no pre-requisite course in philosophy, and yet will certainly be stimulating for those with background knowledge in the discipline of philosophy.

Lectures and class attendance: Note that lectures will almost always introduce concepts and figures that are not mentioned in class readings. Examination and test questions are based on lecture content. Lectures will be mixed with in-class learning activities. Well-maintained notes will provide an invaluable support to your successful completion of the tests, in class exercises, and final exam.

Policy on technology use in class: Out of respect for your fellow students and for the instructor, please turn off phones before coming to class. Please do not use phones in class. Computers are
permitted in class. Students using computers are asked to sit at the back of the classroom to avoid distraction to fellow students.

Cheating on Work, Tests and Examinations: Cheating includes, but is not limited to:

- Copying the answers or other work of another person.
- Having in an examination or test any materials or equipment other than those authorized by the examiners.
- Sharing information or answers when doing take-home assignments, tests, or examinations.
- Impersonating a student on an examination or test

Students found communicating with one another in any way or having unauthorized books, papers, notes or electronic devices in their possession during a test or examination will be considered to be in violation of this policy. (Academic Calendar 2016-17)

Missed tests and exam due date:

You are responsible for attending scheduled tests and meeting the final examination due date. If you miss any of the tests for a justifiable reason (i.e. illness, accident, or family affliction), your course requirement percentage weighting will be adjusted. Note that you must provide documentation of your illness or accident. Otherwise, you will receive a score of zero.

If you miss the final exam due date for an allowable reason (i.e. illness, accident, or family affliction), you must apply to Records Services for a "Request for Academic Concession". This application must be made within ten working days of missing the exam due date (See Annual Calendar). If this request is approved, you will be assigned a make-up exam. If this request is not approved, you will receive a score of zero.
Information regarding religious observance can be located in the UVic Calendar, and in posted Philosophy Department Policies.

**Course experience survey (CES):** “I value your feedback on this course. Towards the end of term you will have the opportunity to complete a confidential course experience survey (CES) regarding your learning experience. The survey is vital to providing feedback to me regarding the course and my teaching, as well as to help the department improve the overall program for students in the future. When it is time for you to complete the survey, you will receive an email inviting you to do so. If you do not receive an email invitation, you can go directly to [http://ces.uvic.ca](http://ces.uvic.ca). You will need to use your UVic NetLink ID to access the survey, which can be done on your laptop, tablet or mobile device. I will remind you nearer the time, but please be thinking about this important activity, especially the following three questions, during the course.

1. What strengths did your **instructor** demonstrate that helped you learn in this course?
2. Please provide specific suggestions as to how the **instructor** could have helped you learn more effectively.
3. Please provide specific suggestions as to how this **course** could be improved.”
