Please print clearly

This Proposed Study Plan is intended as a planning tool for your exchange program; it does not represent your final course registration or exchange credit equivalency. Please note that the availability and content of courses offered by any university could change and you may have to adjust your academic program accordingly.

Before completing this Proposed Study Plan, it is helpful to review your academic program. Please contact your faculty Academic Advising Centre/Advisor to review your CAPP* report (or academic plans, if undeclared). The CAPP report outlines the program requirements needed to complete your degree. This information should help in the selection of courses at the host university.

*Curriculum Advising and Program Planning

To assist you in the completion of this form, you can review courses that have been previously evaluated for UVic credit. Email the International Office outgoing exchange advisor to ask for a list of courses that have been evaluated from the institution in which you are interested. The list you receive will be limited and will reflect past evaluations; a re-evaluation of your exchange courses may be required. (See host institution’s website / catalogue / calendar for complete course offerings.)

Records Services and academic departments will make final decisions regarding your exchange credit evaluations after they receive an official transcript and course outlines. Details regarding the exchange credit evaluation process are on the IOSE website (Outgoing Exchange Students).
