

How to upload your photo for your UVic ID Card (ONECard)

If you have created your netlink ID over 24 hours ago, you can upload your photo for your ID Card.

The upload of your photo and your Government Issued Photo ID is a verification step in producing your ONECard. Government ID is automatically purged once your photo is approved, no copies are retained in our system. Accepted ID includes: passport, driver's license, provincial/state ID card, military ID card, provincial health card with photo, etc.

The photo you submit will be printed on your ONECard, which serves as your official identification. Your photo must be of the same quality and format as other official identification documents like a passport. The photo must not be altered in anyway.

LOGIN: www.uvic.ca

YOU ARE READY TO START!

STEP #1

ONECard photo & identification submission

Please submit your photo here. Keep in mind the following things when taking and cropping your photo.

Current colour photo; White smooth background; Front view-centre face full in frame; Eyes open and visible; Crop from just above head to collarbone; Good lighting.

Other people or object in photo; Hats or sunglasses; Clothing that obscures the face; Glare on glasses; Shadows.

This is an example of what a good photo should look like.

Upload an image from your computer or mobile device and then position your face within the border by clicking and dragging the photo and by using the zoom bar below. Once positioned, select the "Crop photo" button.
