Purpose

Identify the procedure to be followed when requesting housing of animals outside of purpose-built animal care facilities for more than 24 hours.

ACC Procedure

1. Review the ACC Policy: Alternative Housing of Experimental Animals.

2. Contact Animal Care Services to schedule a walk through together to identify whether the proposed space is appropriate for the housing of animals. Complete the Alternative Animals Holding/Housing Checklist at this time.

3. Indicate in Section 12b on your Animal Use Protocol (AUP) that there are “special housing requirements”.

5. Submit your application to the Animal Care Committee for Review.

6. Notify building administration and Campus Security that animals will be housed in your laboratory.
