

Faculty of Science, Department of Biochemistry and Microbiology
University of Victoria

Faculty Position – Molecular Microbiology/Immunology

The DEPARTMENT OF BIOCHEMISTRY AND MICROBIOLOGY at the UNIVERSITY OF VICTORIA seeks applications for a tenure-track faculty position at the rank of **Assistant Professor** in the field of **Molecular Microbiology/Immunology**. The Department fosters a highly collegial and collaborative environment and we invite applications from outstanding researchers who share this vision. The successful applicant is expected to develop a rigorous, externally funded, independent research program that enhances the existing research strengths of the Department and capitalizes on the excellent research community at the University of Victoria. The successful applicant will be expected to contribute to undergraduate and graduate teaching.

The Department of Biochemistry and Microbiology is within the Faculty of Science at the University of Victoria in beautiful Victoria, British Columbia, Canada. The department is research-intensive, publishes extensively, and has an excellent record of external funding from national and international sources. The Department is comprised of 18 faculty members and 5 adjunct faculty members with research strengths in the areas of biomolecular analysis, structural biology, proteomics, microbial pathogenesis, gene regulation and signaling, cancer/cancer immunology, and glycobiology. The University of Victoria offers outstanding research infrastructure, particularly in proteomics, structural biology and microscopy, which is supported by a highly skilled biotechnical services team. The University has close ties with the Deeley Research Centre/BC Cancer Agency and the University of Victoria-Genome BC Proteomics Centre. The Department has strong research-enriched undergraduate and graduate training programs and is committed to excellence in teaching and mentoring.

Review of applications will begin 2 February 2015. Applicants should provide electronic versions of a CV, a 2 page description of their proposed research program and how it would enhance the strengths of the Department, a statement on teaching experience and objectives, and arrange for electronic letters from 3 referees to be sent to:
