

Publications from the Choy lab at UVic Biology Department

- Turner, K., and **Choy, F.Y.M.** 2014. Current methods for the prevention of transmission of mitochondrial DNA diseases. *Journal of Molecular and Genetics Medicine*, manuscript in press.
- Jack, A., Amato, D., Morris, G., and **Choy, F.Y.M.** 2014. Two novel mutations in glucocerebrosidase, C23W and IVS7-1 G>A, identified in Type 1 Gaucher patients heterozygous for N370S. *Gene* 538:84-87.
<http://www.sciencedirect.com/science/article/pii/S0378111914000365>
- Morris, G., Campbell, T.N., and **Choy, F.Y.M.** 2014. The blood-brain barrier roadblock: Strategies for targeted drug delivery. *Journal of Biochemistry and Molecular Biology and in the Post-Genomic Era* 2 (2):1-8, 2014.
- Campbell, T.N., Jack, A.T., and **Choy, F.Y.M.** 2014. 'Gaucher disease and associated dementia', in **Diet and Nutrition in Dementia and Cognitive Decline**, Eds. Martin, C. and Preedy, V., King's College, London, Academic Press, Chapter 7, ISBN 978-0-12-407824-6.
- Jantzen, R.R., Truelson, S.N., and **Choy, F.Y.M.** 2013. Human α -N-acetylglucosaminidase: cDNA cryptic site removal and native secretion signal addition significantly enhance enzyme expression and secretion. *Process Biochemistry* 48:1197-1202. <http://dx.doi.org/10.1016/j.procbio.2013.05.007>,
<http://www.sciencedirect.com/science/article/pii/S1359511313002055>
- Imrie, M.J., Jack, A. T., and **Choy, F.Y.M.** 2013. Using Synthetic Lethality in the Targeted Treatment of Human Cancers. *Journal of Biochemistry and Molecular Biology and in the Post-Genomic Era* 2(2):1-9.
- Campbell, T.N., and **Choy, F.Y.M.** 2012. Gaucher Disease and the Synucleinopathies: Refining the Relationship. *BioMedical Central Orphanet Journal of Rare Diseases* 7:12-18. doi:10.1186/1750-1172-7-12
- Goebl, A, Ferrier, R, Ferreira, P., Pinto-Rojas, A., Matshes, E., and **Choy, F.Y.M.** 2011. Gaucher disease with prenatal onset and perinatal death due to compound heterozygosity for the missense R131C and null RecNciI GBA mutations. *Pediatric and Developmental Pathology* 14(3):240-243. Online: doi: 10.2350/09-11-0744-CR.1, PMID:20946052.
- Choy, F.Y.M.**, Campbell, T. 2011. Gaucher disease and myeloma. Concept and Controversy. *International Journal of Cell Biology*, vol. 2011, Article ID 150450, 6 pages. doi:10.1155/2011/150450

- Zay, A., **Choy, F.Y.M.**, Patrick, C. and Sinclair, G. 2011. Glycine cleavage enzyme complex: Molecular cloning and functional expression of the hydrogen carrier (H-) protein. *Biochemistry and Cell Biology*, 89:1-9, 2011.
- Kimball, S., **Choy, F.Y.M.**, Zay, A., and Amato, D. 2011. Homozygous N396T Mutation in Gaucher Disease: Case Report of Two Sisters with Markedly Different Phenotypes. *International Medical Case Reports Journal* 4:17-20.
- Truelson, S.N., Jantzen, R.R., and **Choy, F.Y.M.** 2011. Sanfilippo syndrome: Identification and removal of a cryptic splice site in α -N-acetylglucosaminidase cDNA for potential improved expression and enzyme replacement therapy. *Journal of Biochemistry and Molecular Biology in the Post-Genomic Era* 1:131-136.
- Sprigg, L., Li, A., **Choy, F.Y.M.**, and Ausio, J. 2010. Interaction of daunomycin with acetylated chromatin. *Medicinal Chemistry*, 53 (17), 6457–6465.
- Disilet, N., Campbell, T., and **Choy, F.Y.M.** 2010. p53-based Anti-cancer Therapies: an Empty Promise? *Current Issues in Molecular Biology* 12: 143-146; online (<http://www.horizonpress.com/cimb/v/v12/143.pdf>)
- Zay, Agnes, **Choy, F.Y.M.**, MacLeod, P., and Tan-Dys, C. and Tan-Dys, C. 2008. Type II Perinatal Lethal Gaucher Disease: A Case Study and a Brief Review on 32 Cases. *Clinical Genetics* 73:191-195.
- Francis Y.M. Choy**, Weimin Zhang, Hui-Ping Shi, Agnes Zay, Tessa Campbell, Nelson Tang, and Patrick Ferreira. 2007. Gaucher disease among Chinese patients: Review on genotype/phenotype correlation from 29 patients and identification of novel and rare alleles. *Blood Cells, Molecules, and Diseases*. *Blood Cells, Molecules, and Diseases* 38:287-293.
- Graham B. Sinclair, Gareth Jevon, Karen E. Colobong, Derrick R. Randall, **Francis Y.M. Choy**, and Lorne A. Clarke. 2007. Generation of a conditional knockout model of murine glucocerebrosidase: Utility for the study of Gaucher disease. *Molecular Genetics and Metabolism*, 90:148-156.
- Sinclair, G., Pfeiffer, T., Gligliatti, T., and **Choy, F.Y.M.** 2006. Secretion of human glucocerebrosidase from stable transfected insect cells using native signal sequences. *Biochemistry and Cell Biology* 84:148-156.
- Bandsmer J, Campbell T, Cheyne I, and **Choy, F.Y.M.** 2006. Expression of active α -N-acetylglucosaminidase/TAT chimerae in *Spodoptera frugiperda* (Sf9) cells. *Protein and Peptide Research Letter* 13:353-356.
- Tang, N.S.L., Zhang, W., Grabowski, G.A., To, K.F., **Choy, F.Y.M.**, Ma, S.L., and Shi, H.P. 2005. Novel mutations in type 2 Gaucher disease in Chinese patients and their functional characterization by in-vitro expression. *Human Mutation* 26(1):59-62,

2005. Full length article available on line from the journal at
