

**Presented by The University of Victoria,
Department of Chemistry:**

**Professional Development Workshop for
High School Science Teachers -**

**“Chemistry activities and information
to inspire future scientists.”**

Date: Friday, May 16, 2014

Location: University of Victoria, Elliott Building

- 9:00—10:00 AM: Coffee with Chemistry Professors and staff, followed by a Department tour and introductory session (returnees might want to skip this part). Elliott 162.
- 10:00—10:15 AM: Break, with refreshments. Elliott Lecture Wing lobby.
- 10:15—11:00 AM: A Cool experiment for your classroom (new!). Watch the demo, then try it out! We'll provide a package with everything you need to do the experiment in your classroom. Presented by: Dr. Scott McIndoe. Elliott 162.
- 11:00 AM—12:00 Noon: Surfing the 'net, and networking! A collaborative session for sharing great online resources for chemists, and a “round-table” networking opportunity for teachers and professors. (Please send links to your favourite resources and/or topics for discussion to fhof@uvic.ca.) Elliott 162. Facilitated by: Dr. Fraser Hof.
- 12:00—1:00 PM: Lunch, provided. Elliott 401.
- 1:00—1:45 PM: The 2013 Nobel Prize in Chemistry—fascinating insights and ideas for discussing with your students. Presented by: Dr. Irina Paci. Elliott 162.
- 1:45 -2:30 PM: Another cool experiment for your classroom (new!). Watch the demo, then try it out! We'll provide a package with everything you need to do the experiment in your classroom. Presented by: Dr. Matthew Moffitt. Elliott 162.
- 2:30—3:15 PM: Research highlights from UVic Chemistry (all new!). Pecha Kucha format. Presented by: Professors and graduate students from the Department of Chemistry. Elliott 162.
