

**Presented by the University of Victoria,
Department of Chemistry:**

**Professional Development Workshop for
High School Science Teachers -**

**“Chemistry activities and information
to inspire future scientists.”**

Date: Tuesday, May 19, 2015

Location: University of Victoria, Elliott Building

- 9:00—10:00 AM: Check-in, followed by a Department tour and introductory session (returnees might want to skip this part). Elliott 3rd floor lobby.
- 10:00—10:15 AM: Break. Coffee and snacks with Chemistry Professors and staff. Elliott Lecture Wing lobby.
- 10:15—11:00 AM: A Cool experiment for your classroom (new!). Find out how to do spectroscopy with your smart phone! We'll provide some great spectroscopy ideas for you to demonstrate in your classroom. Presented by: Dr. Alex Brolo. Elliott 160.
- 11:00 AM—12:00 Noon: Discussion panel: “The top chemistry discoveries which have changed the world.” Professors from the Department of Chemistry. Facilitated by: Dr. Tom Fyles.
- 12:00—1:00 PM: Lunch, provided. A barbecue at Village Greens in the Cadboro Commons Building.
- 1:00—1:45 PM: “Solar cells and Renewable Energy Technologies: Impacts and challenges.” Presented by: Dr. Natia Frank. Elliott 160.
- 1:45 -2:30 PM: Faster, cleaner, greener! More cool experiments for your classroom, these ones involving catalysis. Watch the demos, try them out yourself. We'll provide a package with everything you need to do the experiment in your classroom. Presented by: Dr. Scott McIndoe. Elliott 160.
- 2:30—3:15 PM: Research highlights from UVic Chemistry (all new!). Pecha Kucha format. Presented by graduate students from the Department of Chemistry. Elliott 160. Facilitated by Dr. Frank van Veggel.
