CORE TEACHING AREA: COASTAL STUDIES

103 Introduction to Physical Geography

101A Environment, Society & Sustainability

252 (recommended)

252 and 303 (recommended)

304 or 353

252, 304 (recommended)

Also, one of 328, 329: 252 and one of 370, 373, 376 recommended

424 Field Studies in Coastal Geomorphology

474 Field Studies in Biogeography

376 Process Geomorphology

303 Conservation and Ecology of Whales

355 Coastal Communities

304 Coastal Conservation

353 Coastal and Marine Resources

357 Parks and Protected Areas

319 Remote Sensing of the Environment

276 Introduction to Geomorphology

274 Introduction to Biogeography

Plus Biology

252 Introduction to Coastal Geography (2nd year standing)

209 Introduction to Environmental Management

438 Aquaculture in BC

453 Field Studies in Coastal & Marine Resources

457 Marine Protected Areas

420 Field Studies in Coastal Geomatics

424 Field Studies in Coastal Geomorphology

474 Field Studies in Biogeography

303 Conservation and Ecology of Whales

355 Coastal Communities

304 Coastal Conservation

353 Coastal and Marine Resources

357 Parks and Protected Areas

319 Remote Sensing of the Environment

276 Introduction to Geomorphology

274 Introduction to Biogeography

Plus Biology

252 Introduction to Coastal Geography (2nd year standing)

209 Introduction to Environmental Management

438 Aquaculture in BC

453 Field Studies in Coastal & Marine Resources

457 Marine Protected Areas

420 Field Studies in Coastal Geomatics
