DEPARTMENT OF GEOGRAPHY - UNIVERSITY OF VICTORIA

COURSE OUTLINE - GEOGRAPHY 222

INTRODUCTION TO MAPS AND GIS

Summer 2015

The University of Victoria is committed to promoting, providing and protecting a positive and safe learning and working environment for all its members.

Instructor Dr. Ian J. O'Connell (ianoc@uvic.ca, DTB B322, Local 7338)

Class time Monday 12:30 - 14:20  HHB 116
      Wednesday 12:30 - 14:20  HHB 116

Labs DTB A251

Office Hours See CourseSpaces or by appointment

Course Objectives introduce fundamentals of geographic information;
      introduce different types of maps and map reading;
      introduce Geographic Information Systems;
      gain familiarity with GIS software; and
      introduce digital mapping
      introduce GIS applications

Learning Outcomes ability to complete continuous and discrete geo-referencing;
      ability to read and calculate scales;
      ability to understand, evaluate and select suitable map projections;
      basic hands-on GPS experience;
      ability to classify geographic information;
      ability to differentiate between different types of maps;
      describe how GIS can be used to solve problems;
      ability to explore GIS data, metadata and maps;
      basic digital GIS map skills;

Warning Academic integrity requires commitment to the values of honesty, trust, fairness, respect
      and responsibility. It is expected that students, faculty members and staff at the
      University of Victoria, as members of an intellectual community, will adhere to these
      ethical values in all activities related to learning, teaching, research and service. Any
      action that contravenes this standard, including misrepresentation, falsification or
      deception, undermines the intention and worth of scholarly work and violates the
      fundamental academic rights of members of our community. Students are advised to
      consult the university's Policy on Academic Integrity in the University Calendar. The
      instructor reserves the right to use plagiarism detection software programs to detect
      plagiarism in term papers.

Class Meetings Class will meet on a regular basis twice a week. Attendance in class is expected in order
      for you to understand and complete lab assignments, and to pass examinations. No audio
      or video recordings are permitted unless approved in writing (in advance) by the course
      instructor.
Labs  This course includes 8 graded lab assignments and 1 graded Lab Exam. You will have space on our servers to complete assignments – only materials relating to 222 can be stored – no personal or private material allowed.

Examinations  There will be one mid-term, a Lab exam, and a final examination.

Readings and Course Help

This text has been custom designed for Geog222. Readings will be assigned weekly; Other online resources may also be posted. The textbook readings, posted readings, along with lecture material and lab materials, will constitute material that is examinable.
I will try to make available copies of the slides etc. before the beginning of class. These copies will be placed online on CourseSpaces (Please make sure that you have a UVic NETLINK ID to access these).

Electronic devices for use during exams are limited to non-graphing scientific calculators unless otherwise expressly permitted by the course instructor.

Late Assignments

Lab assignments are due at beginning of your scheduled lab time. Students submitting labs late will be penalized. The initial late penalty is 25%. For every day after that, you will lose 25% per day. An ‘N’ grade is given when a student has missed one or more components of a course and does not reach a passing grade. Failure to complete an assignment (Labs) or exam (midterm, lab exam or final), without permission from the instructor, will result in an ‘N’ grade, which equals a Grade Point Value of 0). Exceptions will only be granted for medical reasons (requiring a written report from a medical practitioner as soon as possible stating your inability to attend class). The written report must be submitted as soon as possible. The course instructor can only grant exceptions.

Course Experience Survey (CES)
I value your feedback on this course. Towards the end of term, as in all other courses at UVic, you will have the opportunity to complete an anonymous survey regarding your learning experience (CES). The survey is vital to providing feedback to me regarding the course and my teaching, as well as to help the department improve the overall program for students in the future. The survey is accessed via MyPage and can be done on your laptop, tablet, or mobile device. I will remind you and provide you with more detailed information nearer the time but please be thinking about this important activity during the course.

Students with diverse learning styles and needs are welcome in this course. In particular, if you have a disability/health consideration that may require accommodations, please feel free to approach me and/or the Resource Centre for Students with a Disability (RCSD) as soon as possible. The RCSD staffs are available by appointment to assess specific needs, provide referrals and arrange appropriate accommodations [http://rcsd.uvic.ca/](http://rcsd.uvic.ca/). The sooner you let us know your needs the quicker we can assist you in achieving your learning goals in this course.
