PSYC 338 A01 Spring 2016: Course Outline

Behavioral Interventions: Children and Adults

Instructor: David Polson, PhD
Email: dpolson@uvic.ca
Office / Hours: COR A214 / TBA
Phone: 721-7525 (leave message)

Teaching Assistant: Melanie Cochrane <mcochran@uvic.ca>
Course website: Available through CourseSpaces.
Lecture Room / Day / Time: DSB C118 / TWF: 11:30-12:20

Course Content
This is a course in applied behavior analysis—behavior modification, as it is more generally known. The objective is to provide you with an appreciation for the techniques, issues, and research designs involved in applying the principles of operant and respondent conditioning to the behavior of children and adults. This course will neither train nor certify you to be a full-fledged behavior analyst; this would require more experience and supervision than is possible in a course of this kind. It should, however, provide you with a foundation of rudimentary skills so that you can practice some of these techniques in your own life, and better understand how desirable and undesirable environment-behavior relations come to develop in your own and others’ repertoires.

Course Materials
(2) THINK FAST (available at course website)
(3) Study Guide (available at course website)
(4) Class Exercise Booklet (available at course website)
(5) Behavior on a Disk computer program (available at course website)

Course Overview
On “lecture” days, you are to complete an online quiz due 30 minutes before class starts. During lectures, I will focus on what I deem to be the most important material from that day’s required reading (see Study Questions section), often supplementing the discussion with my own examples and perspective. Occasionally, I will present new material. On “class exercise” days, we will review your answers to practice analysis and evaluation exercises assigned as homework for that day (see Class Exercise section). On “test” days, THINKFAST assignments are due prior to class (see THINKFAST section), and you will have the full class time to complete the test (see Test section). There will be an exam, based on the class exercises, scheduled during the university exam period.

Course Components
Study Guide. This course is divided into six units matched to certain chapters in the Martin & Pear textbook. The Study Guide contains three sections for each unit. First, under the “Additional Information” section, you are presented with expanded discussions of some of the course concepts. Wherever there is a discrepancy from the textbook, the Study Guide should be given precedence. The second section, “Additional Study Questions,” concerns the study questions found within the chapters of the textbook. For testing purposes, unless otherwise informed here, you are responsible for knowing all the material addressed by each chapter’s study questions. You are also responsible for knowing material addressed by any extra Study Questions included here. The third section, called “Additional Reading,” may sometimes require reading beyond the assigned chapters in the textbook. Unless otherwise informed here, you are not responsible for the Notes for Further Reading page(s) at the end of each chapter.

Pre-Class Quizzes. Prior to a class for which there is a required reading, you are to complete an online quiz related to that reading. The deadline is 30 minutes before that class starts. There are 17 pre-class quizzes, consisting of 5 items each. Overall, this component counts 80 points toward your final grade. (The maximum is 80, but note that the points total to 85, so there are some “free points” here should you score less than 80.)
In-Class Quizzes. During lectures, I will intermittently pause and pose a question to the class. A written response will be required on your part. If you are paying attention, then you will likely find this to be an easy task. The quiz protocol is informal, in that comparing your answers with other students is fine; it is even encouraged. At the end of some (but not all) of these classes I will collect your written work. A score will be assigned out of 10, partly based on your attendance and partly based on your answers. The answers to these quizzes will be posted online afterwards. Overall, this component counts for 70 points toward your final grade.

Class Exercises. A class exercise booklet is available for you to download on the course website. Each exercise starts with an analysis and/or evaluation of a sample vignette. This is a model for how you should approach the remaining vignettes in the exercise. To ensure your analyses and evaluations are complete, follow the prescribed methods in the sample answers as closely as possible.

Whenever an exercise is scheduled, you should come to class prepared; that is, the expectation is that you attempt to answer all the items in that exercise beforehand and bring your rough notes to class. Working in groups in class, you will compare and discuss your analyses and evaluations and try to come to a consensus about the correct answers. Then, in turn, each group will be asked to present some of its work to the class, which may provide the basis for additional discussion. Attendance will be taken, and a score of zero will be recorded if you are absent. At the end of some (but not all) of these classes, I will collect your group’s written answer to at least one exercise item. All group members present will receive the same grade based on their group’s performance. Overall, this component counts 70 points toward your final grade.

THINK FAST. In order to think critically about research methods in psychology, you need to be fluent with the basic facts and concepts. THINK FAST is a computerized flashcard program designed to help you in this regard. It includes six decks of cards, one deck per unit. In THINK FAST, after you select a deck, a session begins: the program presents the cards one at a time and gives you two minutes to provide the answers to as many cards as possible. While there are several response options for learning the cards, you should work only in the Type Keyword mode. In this mode, flashcards are presented that are missing either the answer or a keyword or phrase, and you are required to type in the missing word(s).

Marks will be assigned for practicing, and bonus marks will be awarded for mastery. Specifically, for each deck (unit), you will earn 10 points for practicing at least 15 sessions, totaling at least 30 minutes; you will also earn 2 bonus points if you achieve at least 5 sessions of mastery. The mastery criterion is at least 5 correct responses per minute with less than one incorrect response per minute. There is also an optional seventh deck called “338Bonus,” which contains all the cards for this course. If you achieve at least 15 sessions of mastery with this deck, you will earn 18 bonus points. The due dates for meeting the requirements for each deck are listed in the Class Schedule (see pages 4-5). Overall, this component counts for 60 points toward your final grade. In addition, you can earn up to 30 bonus points.

THINK FAST keeps a record of your scores in the folder that contains the program. To be graded, you must upload a copy of your progress report through the appropriate link at the course website prior to the start of class on the day it is due. At the end of the course you may be asked to submit a file on your disk containing all your data (details to be announced in class). If the data in that file do not match the reports you submitted earlier, then this will be investigated further and the rules and regulations concerning cheating at UVic may apply. For more detailed information about THINK FAST, including how to prepare a copy of progress report and then upload it to the course website, see the document called “Using THINK FAST,” available at the course website.

Research indicates that, relative to students who are traditionally taught, students who are exposed to Precision Teaching—with an emphasis on developing fluency (high rate correct) with basic terms and facts—write more succinct and accurate essays (even though they are not specifically trained to do so), participate in more class discussions, and have better concentration and long-term retention. Students in my classes have reported that developing fluency also helped them better understand the course readings. Thus, working with THINK FAST should have positive benefits for you beyond merely memorizing the definitions.

Tests. There will be three tests, one for every two units in the course. A test will consist of about 30-35 multiple choice questions, worth one mark each and several fill-in-the-blank items, worth ½ mark each. Some tests might include a few short written items. The multiple choice and written items will be based on material covered in the textbook readings and lectures since the last test. The fill-in-the-bank items will be selected from the THINK FAST.

decks covered since the last test. Tests are weighted equally; overall, they count **520 points** toward your final grade.

**Exam.** The exam will be based on the class exercises, in particular, the analysis and evaluation of behavioral applications. The format of the items on the exam will be identical to the format of the items in the class exercise booklet; the difference is that the vignettes you will be analyzing and evaluating on the exam will be novel ones. More details will be provided later. The exam counts **200 points** toward your final grade.

**Bonus**

In addition to the bonus points available through *THINK FAST*, you can also earn bonus points through *Behavior on a Disk*. The maximum number of combined bonus points that can be earned for the course is 30.

*Behavior on a Disk (BOAD).* This computer program contains games that supplement the required readings. You can earn bonus points by completing certain games by certain dates (see the Class Schedule on pages 4-5). *BOAD* keeps a record of your scores in a progress report. To be graded, you must upload a copy of your progress report through the appropriate link at the course website prior to the start of class on the day it is due. For more detailed information about *BOAD*, including how to prepare a copy of progress report and then upload it to the course website, see the document called "Using *Behavior on a Disk*", available at the course website. Overall, you can earn up to **30 bonus points** using *BOAD*.

**Evaluation**

**Notes**

- Your scores will be frequently updated on the course website. You should check them regularly to ensure that they have been recorded correctly.

- Final grades that end with a decimal point of 0.5 or above will be rounded to the next higher whole number, and grades that end with a decimal point below 0.5 will be rounded to the next lower whole number. For example, if a final percentage grade is 89.5 – 89.9, the grade will be rounded to 90. The rounding criteria will only be used on the final assignment of the letter grade.

- Assignments are due, and tests must be taken, on the date indicated in the Class Schedule. It is not fair for some students to do work later than others, unless there is a valid excuse. Therefore, except in cases meeting the criteria for an academic concession (see below), there will be zero credit and no make-up for any assignments or quizzes not turned in on time. **Travel plans will not be accepted as an excuse.**

- Students who do not complete requirements on schedule due to extenuating circumstances (i.e., personal illness or accident, family affliction, official university activities) must contact me immediately upon their return to make arrangements for substitute work. Late contact (e.g., after the tentative final grades are posted) is unacceptable. Typically, I will require documentation of the circumstance.

- If, for some reason, you do not meet the deadline for properly submitting your *THINK FAST* reports or *BOAD* bonus reports, all is not lost. There will be an opportunity to submit them later in the course for partial credit.

UNIT 3: Intermittent Reinforcement; Shaping

- Required Reading: Martin & Pear, Chapter 8, 12, 7
- Pre-class Chapters 8 and 12 online quiz
  - Possible in-class quiz (based on lecture)

Feb 5 (F)

- Class Exercise D
  - BOAD: Cumulative Record Program: Match Records done (2.5 bonus points)
  - BOAD: Cumulative Records Program: Discriminate Schedules done (5 bonus points)

Feb 8–Feb 12

Reading Break

Feb 16 (T)

- Required Reading: Martin & Pear, Chapter 8, 12, 7
- Pre-class Chapter 7 online quiz
  - Possible in-class quiz (based on lecture)
  - BOAD: Shaping Game: Basic done at medium status (2.5 bonus points)
  - BOAD: Shaping Game: Threshold Game done (2.5 bonus points)
  - BOAD: Shaping Game: Goal Setting Game done (2.5 bonus points)
  - BOAD: Shaping Game: Distribution Game done (5 bonus points)
  - BOAD: Shaping Game: Verbal Shaping done (5 bonus points)

Feb 17 (W)

- Class Exercise E

Feb 19 (F)

UNIT 4: Stimulus Discrimination; Fading

- Required Reading: Martin & Pear, Chapters 9, 10
- Pre-class Chapter 9 online quiz
  - Possible in-class quiz (based on lecture)

Feb 23 (T)

- Required Reading: Martin & Pear, Chapters 9, 10
  - Possible in-class quiz (based on lecture)

Feb 24 (W)

- Class Exercise F

Feb 26 (F)

- Required Reading: Martin & Pear, Chapters 9, 10
- Pre-class Chapter 10 online quiz
  - Possible in-class quiz (based on lecture)
  - BOAD: Verbal Learning done (5 bonus points)

Mar 1 (T)

- Class Exercise G

Mar 2 (W)

- THINK FAST: Units 3 and 4 due
- Test 2

Mar 4 (F)

UNIT 5: Conditioned Reinforcement; Chaining; Programming Generality

- Required Reading: Martin & Pear, Chapters 5, 11, 16
  - Pre-class Lovaas video online quiz (based on online Lovaas video)
  - In-class Harry video quiz (based on in-class Harry video)
Mar 8 (T)  •  **Required Reading**: Martin & Pear, Chapters 5, 11, 16
  ▪  Pre-class Chapter 5 online quiz
    o  Possible in-class quiz (based on lecture)

Mar 9 (W)  •  **Required Reading**: Martin & Pear, Chapters 5, 11, 16
  ▪  Pre-class Chapter 11 online quiz
    o  Possible in-class quiz (based on lecture)

Mar 11 (F)  ❖  Class Exercises H, I

Mar 15 (T)  •  **Required Reading**: Martin & Pear, Chapters 5, 11, 16
  ▪  Pre-class Chapter 16 online quiz
    o  Possible in-class quiz (based on lecture)

Mar 16 (W)  •  **Required Reading**: Martin & Pear, Chapters 5, 11, 16
  o  Possible in-class quiz (based on lecture)

Mar 18 (F)  ❖  Class Exercise J

Mar 22 (T)  **UNIT 6: Respondent Conditioning; Capitalizing on Stimulus Control**
  •  **Required Reading**: Martin & Pear, Chapters 3, 15, 17, 18
  ▪  Pre-class Chapters 3 and 15 online quiz
    o  Possible in-class quiz (based on lecture)

Mar 23 (W)  •  **Required Reading**: Martin & Pear, Chapters 3, 15, 17, 18
  o  Possible in-class quiz (based on lecture)

Mar 25 (F)  **Good Friday**

Mar 29 (T)  •  **Required Reading**: Martin & Pear, Chapters 3, 15, 17, 18
  ▪  Pre-class Chapters 17 and 18 online quiz
    o  Possible in-class quiz (based on lecture)

Mar 30 (W)  ❖  Class Exercise K

Apr 1 (F)  ➢  *THINK FAST*: Units 5 and 6 due
   ★  **Test 3**

Apr 4 (M)  ➢  *THINK FAST*: 338Bonus due

TBA  **Exam to be scheduled in Final Exam Period April 7-22**
Prerequisites

Students who remain in courses for which they do not have the prerequisites do so at their own risk. Students who complete courses without prerequisites ARE NOT exempt from having to complete the prerequisite course(s) if such courses are required for the degree program.

Program Requirements

For more information see pages 220-222 of the UVic Calendar 2015-16.

Registration Status

Students are responsible for verifying their registration status. Registration status may be verified using My Page, View Schedule. Course adds and drops will not be processed after the deadlines set out in the current UVic Calendar.

Commitment to Inclusivity and Diversity

The University of Victoria is committed to promoting, providing and protecting a positive and supportive and safe learning and working environment for all its members.

In the Event of Illness, Accident or Family Affliction (See UVic Calendar, 2015-16, p. 36)

- **What to do if you miss an exam other than one scheduled during the formal examination period**

  Do not apply at Records Services for a “Request for Academic Concession”. Instead submit documentation of the illness, accident or family affliction directly to your course instructor (or designated teaching assistant).

- **What to do if you miss an exam scheduled during the formal exam period**

  Apply at Records Services for a “Request for Academic Concession”, normally within 10 working days of the end of the formal examination period. Records Services will forward the form to the instructor. If the concession is granted the instructor will determine how to deal with the situation (for example, a deferred exam). Where a concession is not applied for or where such application is denied, an N grade will be entered on the student's academic record.

  OR, you can download the Request for Academic Concession form here: [http://www.uvic.ca/registrar/assets/docs/record-forms/rac.pdf](http://www.uvic.ca/registrar/assets/docs/record-forms/rac.pdf)

- **What to do if you require additional time to complete course requirements**

  Apply at Records Services for a “Request for Academic Concession”, normally within 10 working days of the end of the formal examination period. Records Services will forward the form to the instructor. If the concession is granted the instructor will determine how to deal with the situation. Where a concession is not applied for or where such application is denied, an N grade will be entered on the student's academic record.

  OR, you can download the Request for Academic Concession form here: [http://www.uvic.ca/registrar/assets/docs/record-forms/rac.pdf](http://www.uvic.ca/registrar/assets/docs/record-forms/rac.pdf)
Policy on Academic Integrity including Plagiarism and Cheating

The Department of Psychology fully endorses and intends to enforce rigorously the Senate Policy on Academic integrity (http://web.uvic.ca/calendar2015-09/FACS/UnIn/UARe/PoAcl.html, p. 33-35, UVic Calendar 2015-16). It is of utmost importance that students who do their work honestly be protected from those who do not. Because this policy is in place to ensure that students carry out and benefit from the learning activities assigned in each course, it is expected that students will cooperate in its implementation.

The offences defined by the policy can be summarized briefly as follows:

1. **Plagiarism.** You must make sure that the work you submit is your work and not someone else’s. There are proper procedures for citing the works of others. The student is responsible for being aware of and using these procedures.

2. **Multiple Submission.** Only under exceptional circumstances may a work submitted to fulfill an academic requirement be used to satisfy another similar requirement. The student is responsible for clarifying this with the instructor(s) involved.

3. **Falsifying Materials Subject to Academic Evaluation.** This includes falsification of data, use of commercially prepared essays, using information from the Internet without proper citation, citing sources from which material is not actually obtained, etc.

4. **Cheating on Assignments, Tests, and Examinations.** You may not copy the work of others in or out of class; you may not give your work to others for the purpose of copying; you may not use unauthorized material or equipment during examinations or tests; and you may not impersonate or allow yourself to be impersonated by another at an examination. The Department of Psychology has a policy of not making old examinations available for study purposes. Therefore, use of old exams without the express written permission of the instructor constitutes cheating by the user, and abetting of cheating by the person who provided the exam.

5. **Being an Accessory to Offences.** This means that helping another student to cheat (for instance, by showing or communicating to them answers to an assignment, or by allowing them to view answers on an exam) is an academic offence.

Instructors are expected to make every effort to prevent cheating and plagiarism. This may include the assignment of seating for examinations, asking students to move during examinations, requests to see student identification cards, and other measures as appropriate. Instructors also have available to them a variety of tools and procedures to check for Internet and electronic media-based cheating. In instances of suspected or actual plagiarism or cheating, instructors, following prescribed procedures, are authorized to take steps consistent with the degree of the offence. These measures will range from a zero on the test or assignment or a failing grade for the course, probation within a program to temporary or even permanent suspension from the University.

Rights of Appeal are described in the Policy on Academic Integrity in the University calendar (on p. 33-35 in 2015-16).

The definitive source for information on Academic Integrity is the University Calendar (p. 33-35 in 2015-16) (http://web.uvic.ca/calendar2015-09/FACS/UnIn/UARe/PoAcl.html)
