Curious about how two people can be in the same situation but have vastly different experiences?

Interested in how social cognition relates to real-world issues such as biased juries, police shootings of unarmed Black men, honour killings, and gender inequality in access to education?

Wanting to experience a class where you get to be part of an active discussion and experience hands-on activities?

PSYC 431B A01: Social Cognition, CRN: 31160
Instructor: Dr. Jessica Rourke
May 11 - June 26: TR 10:30 – 12:20; F 10:30 – 11:20

SPACE IS LIMITED TO 25 STUDENTS

Gain a further understanding of how we perceive ourselves, others, and the world around us
