Who can you hire?

Co-op students
More than one third of UVic students take part in our Co-operative Education Program, alternating terms in class with terms working for employers in their field.

Students typically complete paid, four-month co-op work terms starting in January, May and September (schedules are flexible, and some work terms can be longer).

Other UVic students and graduates
Hundreds of students and alumni visit our job board each month, seeking part-time, full-time, summer and casual work.
