

CO-OP + CAREER

HIRING CO-OP STUDENTS

Biochemistry and Microbiology

You can hire UVic co-op students studying biochemistry, microbiology and many other programs for work terms beginning in January, May and September.

Students are skilled, enthusiastic and ready to work for organizations like yours!

Biochemistry co-op student and 3M National Student Fellowship winner Sarah Khan worked at Agriculture and Agri-Food Canada, Valley Medical Laboratory and the UVic Department of Chemistry.

How our students stand out

Biochemistry and microbiology students are trained to work in:

- + Agriculture
- + Biotechnology
- + Fisheries
- + Horticulture
- + Medicine
- + Pharmaceuticals
- + Public health

Junior students have skills in:

- + Aseptic techniques
- + Bacterial isolation and characterization by cultural and molecular methods
- + Food, water and clinical microbiology
- + Quality control and quality assurance
- + Fermentation

Senior students can contribute to research in:

- + Cellular and molecular biology
- + Genomics and molecular genetics
- + Bioinformatics
- + Protein biochemistry and proteomics
- + Immunology

Our students work for:

- + Academia and research centres and institutes
- + Pharmaceutical and biotechnology companies
- + Federal and provincial government agencies
- + Non-profit organizations
- + Food and beverage manufacturers
- + Microbreweries and distilleries
