

CO-OP + CAREER

Chemistry Co-op

Join Chemistry Co-op to try different jobs, meet employers, earn a salary and gain relevant work experience! You'll complete co-op terms working for exciting employers in positions related to your field of study.

Chemistry co-op student Danica Jensen (right) worked for AXYS Analytical Systems as a lab chemist.

Chemistry Co-op

Program format options

Co-op work terms begin in January, May and September and are typically 4 months long. Several program options are available to fit your schedule:

- + Co-op Program: 4 work terms
- + Work Experience Program: 1–2 work terms
- + Post-Study Internship: 4, 8 or 12 months

Where you could work

Our employers include industrial and pharmaceutical companies, analytical companies and government. Some past co-op jobs include:

- + AIBN research internship—Australian Institute for Bioengineering and Nanotechnology (AIBN), University of Queensland
- + Cherry and apple quality research co-op student—Agriculture and Agri-Food Canada
- + Formulation and analytical chemist—EcoSafe Natural Products Inc.
- + Lab chemist—AXYS Analytical Services Ltd.
- + Medicinal chemistry researcher—Centre for Drug Research and Development

- + Organics, advanced extractions—ALS Laboratory Group
- + Outreach instructor—Actua
- + Process operator—Teck Ltd.
- + Structure, properties and performance researcher—Automotive Fuel Cell Cooperation
- + Youth STEM instructor—Science Venture

How to apply

Visit uvic.ca/chemcoop to learn more and apply online. You must be pursuing a major or honours degree in chemistry and have:

- + Full-time student status
- + Second-year standing
- + A minimum B average

Application deadlines

- + **August 31** for early intake (first work term in January)
- + **September 30** for regular intake (first work term in May)
