

CO-OP + CAREER

Mathematics and Statistics Co-op

Join Math and Statistics Co-op to try different jobs, meet employers, earn a salary and gain relevant work experience! You'll complete co-op terms working for exciting employers in positions related to your field of study.

University
of Victoria

A young man with short brown hair and a beard, wearing a grey t-shirt, is smiling and leaning on a light brown cow in a grassy field. The background shows trees and a clear sky.

Math student and Jubilee Medal in Science winner Chadi Saad-Roy developed and tested mathematical models estimating the transmission risks of cattle fever, syphilis and anthrax.

Mathematics and Statistics Co-op

Program format options

Co-op work terms begin in January, May and September and are typically 4 months long. Several program options are available to fit your schedule:

- + Co-op Program: 4 work terms
- + Work Experience Program: 1–2 work terms
- + Post-Study Internship: 4, 8 or 12 months

Where you could work

Math and statistics students often work for employers in business, computer gaming, health care and research. You could contribute to projects in a range of areas, including data analysis, mathematical modelling, control statistics, logistics and more. Past co-op jobs include:

- + Co-op student—BC Ministry of Health (Health Sector Information, Analysis and Reporting)
- + Environmental assessment co-op student—Environment and Climate Change Canada
- + Investment operations intern—BC Investment Management Corporation
- + Junior developer—Workday (MediaCore)

- + Modelling and analytics support technician—Alberta Environment and Parks
- + Quality assurance analyst co-op student—RevenueWire
- + STEM outreach assistant—African Institute for Mathematical Sciences
- + Student research assistant in bioinformatics—Agriculture and Agri-Food Canada
- + Survey methodology co-op student—Statistics Canada
- + Toronto investments analyst—Manulife Financial

How to apply

Visit uvic.ca/mathcoop to learn more and apply online. You must be pursuing a Major or Honours degree in Math/Statistics and have:

- + Completed Math 100
- + Second-year status
- + A C+ average (3.0 GPA)

Application deadlines

- + **August 31** for early intake (first work term in January)
- + **September 30** for regular intake (first work term in May)
