

CSC 120 Pre-req Override Request

As of this September, we have introduced a new course (*CSC 120 – Society, Ethics, Professionalism and Computing*) and made ‘successful completion of either CSC 120 or ENGR 130’ a pre- or co-requisite for SENG 265 and a prerequisite for a number of our 300-level CSC and SENG courses. As most of you will not meet this new requirement, we will be providing overrides for students who entered their program prior to September 2026, so that they can register in courses for the upcoming Winter Session, Summer 2027 and the 2027/28 Winter Session.

A list of the impacted courses is below. If you wish to take one (or more) of them in Fall 2026 or Spring 2027, please complete this form and return it to cscugforms@uvic.ca. The request forms for the upcoming Summer 2027 and Winter 2027/28 sessions will be posted to our website the same day their schedules are published (mid-February for Summer and mid-May for Winter).

This waiver is ONLY for CSC 120/ENGR 130 – **you must have all the other pre- or co-reqs listed for a course in order to take it. (This information can be found in the [Academic Calendar](#).)**

Notes: Students that have credit for ENGR 130 will not need an override to register in any of these courses.

Name:

V#:

COURSE	PRE-REQS IN ADDITION TO CSC 120/ENGR 130	TERM REQUESTED		OFFICE USE ONLY
		FALL 2026	SPRING 2027
