Notes

• A 1.5-unit course (equivalent to 3-4 credits at most institutions) meets for at least 3 hours per week for 13 weeks (one term).

Teachable subject area: Computer Science

Courses completed 10 or more years ago must be reviewed for currency. Currency review required? __ Yes __ No

Another approved teachable subject area must be combined with this teachable subject area. Because computer science is not taught in every BC secondary school, you may need to relocate within BC for practicum(s) during this program. If it is not possible to find a suitable practicum placement, the practicum placement will be made based on your other teachable subject area. Please circle your other teachable subject area from the following options:

Art, biology, chemistry, English, French, general science, math, music, physical & health education, physics, or social studies.

Provide course numbers and titles for 12 units of computer science, software engineering, or computer engineering courses approved by UVic Education Advising. Of these, at least 6.0 units must be 200, 300, or 400-level. Please provide the name of the institution(s) where the courses were completed, if not at UVic.
