Notes

- A 1.5-unit course (equivalent to 3-4 credits at most institutions) meets for at least 3 hours per week for 13 weeks (one term).
- At UVic, 'upper-level' refers to 300 and/or 400-level courses normally taken in third and fourth year after introductory studies.

Teachable subject area: General Science

Courses completed 10 or more years ago must be reviewed for currency. Currency review required? ☐ Yes ☐ No

If you have completed science courses, but not the requirements specified for a teaching area in biology, chemistry or physics, you may be eligible for the general science teaching area. General science may not be combined with biology, chemistry, or physics teaching areas. A general science teacher needs a diverse science background. See the curriculum documents for science 8 – 10 on the BC Ministry of Education's web site.

Due to limited practicum opportunities and program seats, we strongly recommend combining this subject with a second teachable subject other than social studies.
