The Department of Computer Science in the Faculty of Engineering at the University of Victoria is seeking applications for a tenure-track faculty position at the assistant teaching professor level with an expected start date of May 1, 2018, or earlier.

We are seeking individuals who have a record of excellence in teaching, can teach a variety of computer science courses at the university level, and have an interest in establishing a long-term teaching career with our Department. Candidates are expected to demonstrate a commitment to excellence in undergraduate student teaching, aim to engage in teaching-related scholarly activities, and have leadership potential in advancing our undergraduate student education. Candidates should demonstrate their commitment to pedagogical enquiry and teaching innovation. The position requires administrative, organizational, mentoring and leadership skills to be able to coordinate large first and second year undergraduate courses, and supervise labs for first and second year courses. They are expected to actively participate in departmental activities.

Successful candidates will have a PhD in computer science or related area, completed by the appointment date. Evidence of excellence in teaching of the successful candidate will be demonstrated by outstanding letters of reference, a teaching statement, and a teaching dossier including course syllabi and teaching evaluations, submitted as part of the application. In particular, we ask for at least two teaching reference letters addressing the candidate’s pedagogical strength, and at least one letter addressing the candidate’s subject competency in computer science. Evidence of participation in instructional development (e.g., teaching-related workshops, teaching-related conferences and presentations, or publications) will be an asset.

In the latest Leiden ranking, UVic placed first in Canada in citations per publication in mathematics and computer science. Physical sciences and engineering placed second in the same category.

Victoria is a great place to live and boasts a vibrant high-tech sector. It has been over a decade since technology eclipsed tourism as this region’s top private industry. The Victoria high-tech industry of over 900 companies has tripled its economic impact to more than $3
billion within the last 10 years. Victoria has Canada's mildest climate, is surrounded by the Salish Sea, and has spectacular views of the Cascades and Olympic Mountains.

Applicants should submit their CV, teaching statement, and teaching dossier and a list of at least three references including addresses, emails and phone numbers.

Applications should be submitted at https://academicjobsonline.org/ajo/jobs/10340. Please note you are asked to upload your CV and other personal information to this service, which is provided for the convenience of you and your referees. The service stores its data on servers located outside of Canada; the data is therefore not in the custody or under the control of the University of Victoria. You may wish to review the privacy statement on academicjobsonline.org. If you do not wish to use this service, please email atpsearch@csc.uvic.ca to request application submission instructions.

The closing date for applications is December 15, 2017.

If you have questions, please do not hesitate to contact the Recruiting Committee Chair.
