Course Objectives

Students will learn how to:

- Apply career management to leverage their engineering education into career success upon graduation.
- Strategize for future career success by learning how to set realistic goals and plan/undertake the required professional development in order to attain those goals.
- Gain an awareness of the labour market conditions (both locally and internationally) in order to successfully contribute to the telecommunications/information security field.
- Apply the fundamentals of project management including risk management, time management.

Learning Outcomes

Students will be able to:

- Understand the importance of labour market awareness in strategizing for career success (domestic & international) in today’s global market.
- Analyze sector, industry, and occupational information for the purpose of planning for future professional development.
- Strategize a successful transition from their academic achievements into an Engineer-In-Training (EIT) role and ultimately their Professional Engineer (PEng) career.
- Utilize their professional association (e.g., APEGBC in British Columbia) to build a professional network, a professional reputation, and plan ongoing professional development.
- Communicate professionally and effectively via verbal presentations and written technical reports.

Days: Wednesdays
Time: 14:30-15:20
Location: ECS-104

Required/Optional Readings/Text/References:
A number of academic papers, articles, books, and web resources will be read to inform your contribution to the weekly discussions on the topics in this course – these will be provided through CourseSpaces or in class.

Assessment:

Reflective Questions (Individual 5 X 3%) 15% Due: Bi-Weekly
One-minute Talks X 2 (Individual 2 X 5%) 10% Date: Every 6 weeks
Group Presentation (Teams of two) 25% Date: December 4, 2019
ePortfolio (Individual) 15% Due: December 6, 2019
Final Group Technical Report (Teams of two) 35% Due: December 6, 2019

Reflective Questions:
Reflecting on your experiences takes time, but from a learning perspective, it can help you think about where you’ve have been and where you want to go. Reflection can help you assess situations, make better decisions, and gain a deeper understanding of the consequences of your actions. The bi-weekly reflective questions will ask you to reflect on the learning you have experienced and explain briefly how you will integrate this into your existing knowledge base. Questions will be posted on http://coursespaces.uvic.ca and answers will be submitted online.

One-minute ‘Elevator Pitch’:
Each member of the class is to give 2 One-minute Talks; one per every 6 weeks.
Several members give talks at the beginning of the class per week; the same group per every 6 weeks.
Subject 1: Your view on ethics and professionalism.
Subject 2: Your career plan.

Group Presentation:
Groups of two to give a 20-minute PowerPoint Team presentation on a topic related to recent cyber security (MTIS) or data science (MADS) issues in the news.

ePortfolio:
While a resume or CV articulates your knowledge and experience for a particular job, an ePortfolio presents examples of your work and achievements which can be housed on your website or on ePortfolio sites. With the move to online professional networking (LinkedIn) and the trend towards cloud-based networks, having an ePortfolio has become an important complementary piece of a successful career for engineers. This assignment requires that you choose a suitable platform and build an ePortfolio that will help promote your competencies to potential employers. Guidance will be provided, and samples and resources will be posted on http://coursespaces.uvic.ca.

Final Technical Report:
A properly formatted report on a current technical topic of your choice related to telecommunications and/or information security (MTIS) or data science (MADS).

Note: Failure to complete all course requirements will result in a grade of N being awarded for the course.

The final grade obtained from the above marking scheme for the purpose of GPA calculation will be based on the percentage-to-grade point conversion table as listed in the current Graduate Calendar.
Note to Students:
Students who have issues with the conduct of the course should discuss them with the instructor first. If these discussions do not resolve the issue, then students should feel free to contact the Chair of the Department by email or the Chair's Secretary to set up an appointment.

Course Withdrawal Deadlines:
- September 17: Withdrawal with 100% reduction of tuition fees
- October 8: Withdrawal with 50% reduction of tuition fees
- October 31: Last day for withdrawal without penalty of failure (no fees returned)

Equality:
This course aims to provide equal opportunities and access for all students to enjoy the benefits and privileges of the class and its curriculum and to meet the syllabus requirements. Reasonable and appropriate accommodation will be made available to students with documented disabilities (physical, mental, learning) in order to give them the opportunity to successfully meet the essential requirements of the course. The accommodation will not alter academic standards or learning outcomes, although the student may be allowed to demonstrate knowledge and skills in a different way. It is not necessary for you to reveal your disability and/or confidential medical information to the course instructor. If you believe that you may require accommodation, the course instructor can provide you with information about confidential resources on campus that can assist you in arranging for appropriate accommodation. Alternatively, you may want to contact the Centre for Accessible Learning located in the Campus Services Building.

The University of Victoria is committed to promoting, providing, and protecting a positive, and supportive and safe learning and working environment for all its members.

Course Lecture Notes:
Unless otherwise noted, all course materials supplied to students in this course have been prepared by the instructor and are intended for use in this course only. These materials are NOT to be re-circulated digitally, whether by email or by uploading or copying to websites, or to others not enrolled in this course. Violation of this policy may in some cases constitute a breach of academic integrity as defined in the UVic Calendar.

Sexualized Violence Prevention and Response at Uvic:
UVic takes sexualized violence seriously, and has raised the bar for what is considered acceptable behaviour. We encourage students to learn more about how the university defines sexualized violence and its overall approach by visiting www.uvic.ca/svp. If you or someone you know has been impacted by sexualized violence and needs information, advice,
and/or support, please contact the sexualized violence resource office in Equity and Human Rights (EQHR). Whether or not you have been directly impacted, if you want to take part in the important prevention work taking place on campus, you can also reach out:
