CENG 355 – Microprocessor-Based Systems

Term – Fall 2017 (201709)

Instructor		**Office Hours**	
Dr.	Daler Rakhmatov	Days:	T
Phone:	250-472-5214	Time:	11:30 – 13:00
E-mail:	daler@ece.uvic.ca	Location:	EOW 327

Course Objectives

- Students will learn about hardware-software interplay and tradeoffs arising in modern embedded systems and associated system integration and interfacing issues.

Learning Outcomes

- Students will develop a general understanding of the operation, design, application, and programming of 32-bit microprocessor-based systems, and will be able to apply studied concepts to any advanced embedded system.

Syllabus (tentative hours)

- Embedded systems (1) – Applications, technologies, trends.
- Embedded software (4) – C programming, operating system concepts.
- Microprocessors (5) – Digital arithmetic, pipelining, multithreading.
- Memory hierarchy (8) – Locality, caching, virtual memory.
- I/O interfacing (10) – Handshaking, interface circuits, interrupts, DMA.
- Internal and external communication (8) – Signaling, protocols, buses.

Assessment:

Assignments:	5%	Due Dates: TBA
Labs:	30%	
Mid-term:	20%	Date: October 27 (tentative)
Final:	45%	

Note: **Failure to complete all laboratory requirements will result in a grade of N being awarded for the course.**

The final grade obtained from the above marking scheme for the purpose of GPA calculation will be based on the percentage-to-grade point conversion table as listed in the current Undergraduate Calendar.

Assignment of E grade and supplemental examination for this course will be at the discretion of the Course Instructor. The rules for supplemental examinations can be found in the current Undergraduate Calendar.

Note to students: Students who have issues with the conduct of the course should discuss them with the instructor first. If these discussions do not resolve the issue, then students should feel free to contact the Chair of the Department by email or the Chair's Secretary to set up an appointment.

Cheating, plagiarism and other forms of academic fraud are taken very seriously by both the University and the Department. You should consult the entry in the current Undergraduate Calendar for the UVic policy on academic integrity.

Equality: This course aims to provide equal opportunities and access for all students to enjoy the benefits and privileges of the class and its curriculum and to meet the syllabus requirements. Reasonable and appropriate accommodation will be made available to students with documented disabilities (physical, mental, learning) in order to give them the opportunity to successfully meet the essential requirements of the course. The accommodation will not alter academic standards or learning outcomes, although the student may be allowed to demonstrate knowledge and skills in a different way. It is not necessary for you to reveal your disability and/or confidential medical information to the course instructor. If you believe that you may require accommodation, the course instructor can provide you with information about confidential resources on campus that can assist you in arranging for appropriate accommodation. Alternatively, you may want to contact the Resource Centre for Students with a Disability located in the Campus Services Building.
The University of Victoria is committed to promoting, providing, and protecting a positive, and supportive and safe learning and working environment for all its members.

Course Lecture Notes: Unless otherwise noted, all course materials supplied to students in this course have been prepared by the instructor and are intended for use in this course only. These materials are NOT to be re-circulated digitally, whether by email or by uploading or copying to websites, or to others not enrolled in this course. Violation of this policy may in some cases constitute a breach of academic integrity as defined in the UVic Calendar.
