ECE 485 Data Analysis and Pattern Recognition

Term – SPRING 2021 (202101)

Instructor     Office Hours
Dr. Michael McGuire   Days: Thursdays
Phone: (250) 721-8684    Time: 2PM-3PM
E-mail: mmcguire@uvic.ca   Same zoom link as for class: Zoom link

BrightSpace Page: https://bright.uvic.ca/d2l/home/113241

Course Objectives
The objectives of this course are to introduce students to modern approaches to statistical data analysis and pattern recognition, including the application and assessment of common machine learning techniques. The course focuses on providing the students with an appreciation of the underlying probability and statistical issues as they apply to these domains and how these can be used to assess the quality and performance of data analysis and pattern recognition solutions.

Learning Outcomes
Students successfully completing this course will gain an understanding of:
- Probability, statistics, and random processes as applied to statistical pattern recognition.
- The nature an importance of statistical stationarity and ergodicity assumptions with respects to pattern recognition problems.
- The differences and distinctions between parametric and non-parametric pattern classification techniques.
- Why the underlying statistics and probability issues are important to the proper assessment of the accuracy and correctness of pattern classification approaches.
- The basic characteristics and distinction between several commonly applied machine learning-based pattern recognition approaches.
- There is an overall lack of generally superiority of any given data analysis, pattern recognition, and/or machine learning method as well as a lack of any privileged (or best) set of measurement features. Instead, the selection of analysis methods and feature is driven by the problem domains and the questions being asked of the available data.

If time permits, an understanding as to how problem domains such as cyber-security and privacy introduce changes to the underlying assumptions.

Syllabus
The exact pacing of the syllabus materials will vary in accordance with each class, as such the syllabus solely denotes a provisional pacing which may or may not change during the course delivery.

- Course introduction
- Review of Mathematical Foundations
- Brief review of the basics of Matlab.
- Basic examples of Pattern Recognition & Classification Problems
- Bayesian Decision Theory
- Maximum-likelihood & Bayesian Parameter Estimation
• Non-parametric Techniques
• General Machine Learning Issues
• Unsupervised Learning and Clustering
• Application Area: (if time permits)
  ○ Applying pattern recognition and data analysis methods to wireless communications

A-Section(s): A01 / CRN 20929
Days: TWF
Time: 12:30-13:20

Required Textbook
Title: Pattern Classification (2nd Edition)
Author: R.O. Duda, P.E. Hart, D.G. Stork
Publisher: John Wiley & Sons, Inc.
Year: 2001

Online Course Delivery:
As this course will be conducted online during this term, students will need to complete assignments/labs online. The students will require access to a computer which has the following software installed: MATLAB. University of Victoria students will be able to download and install MATLAB from here: https://matlab.engr.uvic.ca/

Assessment:
Assignments: 20 % Due Dates: TBD
Mid-term 30 % Date: February 26, 2021
Final Exam 50 % Date: TBD

Important: All deadlines and schedules for this course will reference Pacific Standard Time until March 14, 2021 and then Pacific Daylight Time.

The final grade obtained from the above marking scheme for the purpose of GPA calculation will be based on the percentage-to-grade point conversion table as listed in the current Undergraduate Calendar.

There will be no supplemental examination for this course.

Note to students:
Students who have issues with the conduct of the course should discuss them with the instructor first. If these discussions do not resolve the issue, then students should feel free to contact the Chair of the Department by email or the Chair's Assistant to set up an appointment.

Course Withdrawal Deadlines:
• January 19, 2021: Withdrawal with 100% reduction of tuition fees (under review)
• February 9, 2021: Withdrawal with 50% reduction of tuition fees (under review)
• February 28, 2021: Last day for withdrawal (no fees returned) (under review)

Accommodation of Religious Observance:
https://www.uvic.ca/calendar/archives/202101/undergrad/index.php#/policy/r1q0gofdN?bc=true&bcCurrent=10%20-%20Accommodation%20of%20Religious%20Observance&bclItemType=policies
Policy on Inclusivity and Diversity:
Engineering: https://www.uvic.ca/engineering/about/equity/index.php

Standards of Professional Behaviour:
You are advised to read the Faculty of Engineering document Standards for Professional Behaviour, which contains important information regarding conduct in courses, labs, and in the general use of facilities. https://www.uvic.ca/engineering/assets/docs/professional-behaviour.pdf

Academic Integrity
Cheating, plagiarism and other forms of academic fraud are taken very seriously by both the University and the Department. You should consult the entry in the current Undergraduate Calendar for the UVic policy on academic integrity. https://www.uvic.ca/calendar/archives/202101/undergrad/index.php#/policy/Sk_0xsM_V?bc=true&bcCurrent=08%20-Policy%20on%20Academic%20Integrity&bclItemtype=policies

Equality:
This course aims to provide equal opportunities and access for all students to enjoy the benefits and privileges of the class and its curriculum, and to meet the syllabus requirements. Reasonable and appropriate accommodation will be made available to students with documented disabilities (physical, mental, learning) in order to give them the opportunity to successfully meet the essential requirements of the course. The accommodation will not alter academic standards or learning outcomes, although the student may be allowed to demonstrate knowledge and skills in a different way. It is not necessary for you to reveal your disability and/or confidential medical information to the course instructor. If you believe that you may require accommodation, the course instructor can provide you with information about confidential resources on campus that can assist you in arranging an appropriate accommodation. Alternatively, you may want to contact the Centre for Accessible Learning located in the Campus Services Building. https://www.uvic.ca/services/cal.
The University of Victoria is committed to promoting, providing, and protecting a positive, supportive, and safe learning and working environment for all its members.

Course Lecture Notes:
Unless otherwise noted, all course materials supplied to students in this course have been prepared by the instructor and are intended for use in this course only. These materials are NOT to be re-circulated digitally, whether by email or by uploading or copying to websites, or to others not enrolled in this course. Violation of this policy may in some cases constitute a breach of academic integrity as defined in the UVic Calendar.

Sexualized Violence Prevention and Response at Uvic:
UVic takes sexualized violence seriously, and has raised the bar for what is considered acceptable behaviour. We encourage students to learn more about how the university defines sexualized violence and its overall approach by visiting www.uvic.ca/svp. If you or someone you know has been impacted by sexualized violence and needs information, advice, and/or support please contact the sexualized violence resource office in Equity and Human Rights (EQHR). Whether or not you have been directly impacted, if you want to take part in the important prevention work taking place on campus, you can also reach out:

Where: Sexualized violence resource office in EQHR; Sedgewick C119
Phone: 250.721.8021
Email: svpregistrar@uvic.ca
Web: www.uvic.ca/svp

Office of the Ombudsperson:
The **Office of the Ombudsperson** is an independent and impartial resource to assist with the fair resolution of student issues. A confidential consultation can help you understand your rights and responsibilities. The Ombudsperson can also clarify information, help navigate procedures, assist with problem-solving, facilitate communication, provide feedback on an appeal, investigate and make recommendations. Phone: 250-721-8357; Email: ombuddy@uvic.ca, Website: [https://uvicombudsperson.ca/](https://uvicombudsperson.ca/)
