The Department of Electrical and Computer Engineering is seeking a qualified individual to teach ECE 572 Security, Privacy, and Data Analytics for the Summer 2019 (May to August) academic term. The calendar description of the course can be found below:

**ECE 572 Security, Privacy, and Data Analytics**  
Units: 1.5  
Formerly: ELEC 572

Explores the underlying theoretical foundations of information security and privacy issues from an engineering perspective. Applications of information-theoretic concepts, techniques, and methods to the problem of quantifying achieved levels of security and privacy in larger-scale systems in the presence of adversaries. Students are required to complete a project.  

**Note:** Credit will be granted for only one of ECE 572, ELEC 572.

**Prerequisite(s):**  
ECE 567 or ELEC 567

---

**REQUIRED QUALIFICATIONS AND EXPERIENCE**

- The successful individual will have a Ph.D. and relevant industrial experience with the subject matter.  
- Prior teaching experience at a university level is an asset.  
- Salary is commensurate with the qualifications and follows the Sessional Lecturer Salary Grid included in the agreement between the University of Victoria and CUPE Local 4163 (Component 3).  
- Professional engineering registration (PEng) is highly desired.

The availability of this position is subject to funding and enrollment criteria. The University of Victoria reserves the right to fill additional teaching assignments from the pool of applicants for this posting.

The University of Victoria is an equity employer and encourages applications from women, persons with disabilities, visible minorities, and aboriginal persons.

**TO APPLY:** Please submit an expression of interest together with a recent CV via email to eceasst@uvic.ca Attention: Chair, Department of Electrical and Computer Engineering by: **21 February 2018.**

The anticipated date by which employment decisions will be made is **28 February 2018.**
