As part of the University of Victoria’s ‘5 days of Action in March’ and as a way to build on our ongoing efforts to end discrimination, harassment and sexualized violence, the School of Child and Youth Care is hosting a dialogue that is open to all members of our community. As a way to focus our discussion, please read the two attachments ahead of time and come prepared to discuss and learn with others.

The following question will guide our dialogue:

• What action steps can we take in our CYC classrooms, hallways, and practice contexts to enact the commitments outlined in our School’s November 2017 “Statement of Solidarity?”
