Title: McKinnon Building Fire Alarm Panel Upgrades

Location: McKinnon Building

Description: The Facilities Management Electrical Shop will be performing fire alarm upgrades and testing, including the replacement of the front annunciator and testing of sprinkler flow and tamper devices. The fire alarm system will be offline during this time, and access to common areas and some classrooms may be required.

Monday, March 16th (am)

This work may interrupt magnetic door holders (fire doors), rooftop fan units, and overhead doors in the 001F corridor. The overhead door holders should remain operational, but there is a possibility they may not function for the duration of the work.

Tuesday, March 17th from 8am to 4pm

The women's changing room will be temporarily closed to replace cables routed through this space.

Friday, March 20th from 7am – 8am

A fire bell test is scheduled

If you notice a fire during this time, please report it to Campus Security at 250-721-7599 and leave the building as quickly and safely as possible.

Time frame: March 16, 2026, 7AM to March 20, 2026, 12PM
