

Facilities Notice

Title:	Engineering Expansion Project – ECS: material pallets in atrium
Location:	Level 1 ECS interior atrium adjacent to the south hoarding wall to the new ECSE addition
Description:	In support of the Engineering Expansion Project, Bird Construction continues to proceed with a specific scope of work within the ECS atrium in preparation for the connection of the new ECSE extension building. Bird Construction will place a number of pallets of boxed panel material, that will be installed within the next 2-3 weeks. These would sit temporarily in this location, encircled with bollards and tape, until all are installed. This would have no impact on ECS circulation. Access to the south stairwell and all classrooms and service spaces would be maintained / not impacted by this material placement.
Time frame:	Thurs. June 11 – Wed. July 1
