

Facilities Notice

Title: 22-05571 PCH Building Air Balancing and Repairs

Location: Petch Building – All Spaces

Description: Facilities Management and Rain City Technical will be performing a final adjustment and confirmation measurement of the air balancing inside your spaces this week.

Please note:

They will be entering any required areas briefly and will not create dust or disturb instrumentation.

You may continue to occupy and utilize your labs as usual.

All fume hoods will remain operational.

Rain City personal will continue to abide by all safety procedures for entrance into laser, NMR, radioactive nuclei and crystal growth areas.

Rain City Technical Personal will work around any scheduled lab classes.

Please reach out with any questions or concerns.

Time frame: July 20 through July 24, 2026
