

Facilities Notice

Title: 22-05571 Petch Building Air Balancing and Repairs

Location: Petch (PCH) Building 272

Description: This is a reminder that Facilities Management, JB Sheetmetal, and Rain City Technical will be adding bypasses to the ductwork in PCH 272 and rebalancing this lab over the remainder of this week and next.

During this time fume hoods in PCH 272 will not be usable.

If you are planning on relocating hazardous chemicals within this space during the next two weeks, and have not done so already, please consult with myself or Paraskevi Lagaditis for a list of safe times.

Please reach out with any questions or concerns.

Time frame: August 18 through August 28, 2026

FMGT contact: Jen Miley, Project Manager
