

Facilities Notice

Title: 25-06698 ELL Phys Lab Reno – ELL Building heating disruption

Locations: Elliot Building

Description: The contractor CGI will be doing mechanical heating tie in at ELL Corridor 100B which will require temporary drain down of the heated water loop that heats the building. This only affects general room heating and will not affect domestic hot water.

With typical outdoor temperatures and baseboard heaters present in many rooms, little to no noticeable difference in temperature is expected.

If you have any concerns, please reach out to the Project Manager.

Time frame: August 31, 2026, 6:30am- 4pm.

FMGT contact: Harman Brar, Project Manager
