Title:	Engineering Expansion Project – ECSE Functional Testing of Building Systems
Location:	ECSE building
Description:	In support of the Engineering Expansion Project, Bird Construction and project Consultants are conducting Functional Testing of building systems, to ensure systems are integrated and operating effectively. This could result in temporary impacts on temperature, lighting, airflow and equipment noise. We appreciate your patience while this work is underway.
Time frame:	current – Nov. 30, 2026
