Facilities Notice

FACILITIES MANAGEMENT
Saunders Building
PO Box 1700 STN CSC Victoria BC V8W 2Y2 Canada

Title: PETCH Building – Phase III Power Shutdown
Location: Petch Building

Description: Following the successful completion of the first two phases of the building wide power shutdowns, Phase III, to replace the UVIC emergency generator in PCH 047 will commence shortly.

Below you will find the dates where power shutdowns are planned.

Time frame:

Saturday, March 3:
7am – 9am: Facilities Management (FMGT) and Kinetic will be de-energising normal power to PCH, emergency power will be energised via the existing UVIC emergency generator.
9am – 10am: Normal power is re-energised, critical equipment will be moved from emergency to normal power.
10am – 6pm: Emergency power is de-energised for 8 hours.
6pm – 8pm: Emergency power is re-energised and critical equipment returned to emergency circuits.

March 5 – March 16: Ongoing installation and commissioning of the new emergency generator and associated mechanical and electrical services.

Saturday, March 17:
8am – 10am: Normal power will be de-energised to PCH, emergency power will be energised via the temporary generator.
10am – 11am: Normal power is re-energised, critical equipment will be moved from emergency to normal power.
11am – 1pm: Emergency power is de-energised for 2 hours.
1pm – 3pm: Critical equipment returned to emergency circuits.
