**Title:** PETCH Building – Phase III Power Shutdown – Breezeway Closures

**Location:** Petch Building – Walkways and grassed area on north side of PCH.

**Description:** As part of the Phase III Power Shutdown, Facilities Management and Kinetic Construction will be closing the walkways on the north side of PCH building to facilitate the delivery of the 200kW temporary generator into the compound on the north side of Petch.

During the closures, traffic control measures will be in place and pedestrians will be directed away from the work toward the entrances in the center of Petch Building.

Dates and times are listed below:

**Time frame:**
- **Thursday, March 1:** 11:00am – 2:00pm – Temporary Generator delivery.
- **Friday, March 2:** 11:00am – 2:00pm – Crane delivery to compound.
- **Monday, March 5:** 7:00am – 2:00pm A crane will be in operation, removing the old generator, and hoisting in the new generator.
- **Wednesday March 14 – Thursday March 15:** All Day. A lift will be in operation for workers installing the new exhaust flue.
- **Monday, March 19:** 11:00am – 2:00pm: Temporary Generator removed.
