Title: Visual Arts Building Mechanical Shutdowns - UPDATE

Location: As shown on attached drawings

Description: Houle Electrical Contractors will be installing new mechanical equipment in the Visual Arts Building next week.

These installations will affect building occupants between the hours of 11:00PM and 7:00AM. These installations will require the shut down of Air Handling Units (AHU’s) serving various areas of the building.

During these shut downs there will be NO ACCESS to the areas served by the AHU(s) due to the loss of supply air, exhaust and heat.

Attached is a drawing showing the areas affected each night. Areas outside of the affected areas will remain available for use.

All work is scheduled between the hours of 11:00PM and 7:00AM. If you are in the building during these hours, please be aware of workers in the area.

At 7:00AM each morning, all mechanical systems throughout the building will resume to normal operation and all areas of the building will be accessible.

Time frame: Thursday, March 22, 2018 – Thursday, March 29, 2018
11:00PM to 7:00AM
