Saunders Building
PO Box 1700 STN CSC Victoria BC V8W 2Y2 Canada

Title: Elliott Building - Scheduled Fire Alarm Verification

Location: Elliott Building

Description: Facilities Management is working with Perma Construction on the Elliott Second Floor Laboratory Project. As part of the project, changes have been made to the fire alarm system. Henneberry Electric will be performing a Fire Alarm Verification to ensure the system has been completed correctly.

Part of the fire alarm verification includes the testing of fire bells. Henneberry expects to carry out the fire alarm bell testing in the morning. **Verification testing usually consists of a series of short rings or single rings.** In the event of an actual emergency, the fire bells will ring continuously for an extended period of time.

Time frame: Monday, April 23, 2018 – 8:30 AM to 4:00 PM

Facilities Management contact: Scott Kingham, Project Manager
