Title: PETCH Building – 30 Minute Normal Power Shutdown

Location: Petch Building

Description: Facilities Management and Kinetic Construction will be de-energising normal power to Petch Building to replace a breaker in the main electrical room. The shutdown is expected to take 30 minutes. Emergency power will be maintained by the life safety generator during the outage.

Following normal power being restored, the emergency panel in PC252 (EUC-2) will be de-energised for an additional 30 minutes.

Time frame: Wednesday, April 25, 2018

7:00pm – 7:30pm: Normal power is de-energised during this time.
8:00pm – 8:30pm: Emergency panel EUC-2 in PCH 252 is de-energised.
