Title: Cunningham Building – Power Shutdown – CUN 245

Location: Cunningham Building

Description: Facilities Management and Kinetic Construction are now in position to replace panel EB located in CUN 245. This will require a shutdown of all Emergency Power on the whole second floor with the exception of life safety items. All general building power will still be available. This is scheduled to take place on June 14, 2018 between 8:00am to 6:00pm.

Time frame: Wednesday, June 13, 2018 – Thursday, June 14, 2018 – All times are approximate and subject to change.

Wednesday, June 13, 2018: UVIC’s stakeholders, Facilities Management and Department Techs will ensure all critical circuits are run on a different floor’s circuit via extension cords and/or other connections.

Thursday, June 14, 2018 - Construction Activities:

8:00am – 3:00pm: Main power to panel EB will be shut down. The old EA Panel will be disconnected. A NEW larger EB panel will connected, and refed.

3:00pm – 6:00pm: Facilities Management and Departmental Techs will confirm power has been restored to all equipment on emergency circuits.

6:00pm: All work expected to be complete. The first floor of Cunningham will now be fed by the new larger EB Panel.
