Title: Petch Building – Water Test – Level 0

Location: PCH Building

Description: Facilities Management and Kinetic Construction are now in position to conduct a water test of all the chilled waterlines. Kinetic will need access to all the rooms on the basement floor to check if there are any leaks. Leaks are not expected as all lines have been air tested. Note, critical rooms have been left out for the time being and will be tested at a later date.

Upon completion, all chilled water lines (in non-critical rooms) in PETCH will be filled and successfully tested.

Time frame: Tuesday, June 19, 2018 - Wednesday, June 20, 2018, 5pm – 2am. All times are approximate and subject to change.
