Title: Graduate Student Centre – Roofing Work

Location: Graduate Student Centre

Description: Facilities Management has awarded the work of roofing the pyramidal and sloping roofs, as well as the cedar board siding at the roof locations to Parker Johnstone. Please note the following as presently advised by the Contractor:

1. The Contractor plans to commence work in early July 2018, and be complete before the end of August 2018.
2. Certain grassed locations around the building have been identified where containers may be placed, for the debris from the removal operations.
3. The Contractor is aware of the outdoor patio areas, and while will attempt to minimize negative impacts from debris and dust, some inconvenience and noise should be expected.
4. The Contractor is aware of the loading zone area to this building, and will work with GSC staff for the temporary use of this space for hoisting new materials onto the roof areas.
5. The Contractor has been asked to install safety fencing at ground level, where roof spaces above are being worked upon. The intention is to keep building occupants and others a safe distance away from the roof construction zone.

Time frame: July 2018 through August 2018
