Facilities Management has awarded the work of roofing the (narrow) spaces around Auditorium and the 2 penthouses to Parker Johnston Industries Ltd. Please note the following as presently advised by the Contractor:

1. The Contractor plans to commence work in early July 2018, and be complete before the end of August 2018. The Contractor is aware of the ‘black out’ periods earlier identified for the on-going use/occupancy of the Auditorium.

2. Certain grassed locations around the building have been identified where containers may be placed, for the debris from the removal operations.

3. The Contractor is aware of the loading zone areas to this building. Some adjoining areas may be temporarily utilised for hoisting materials onto the roof.

4. The Contractor has been asked to install safety fencing at ground level, where roof spaces above are being worked upon. The intention is to keep building occupants and others a safe distance away from the roof construction zone.

Time frame: July 2018 through August 2018
